

SHIVAM RAJPUT

Full Stack Web Developer (MERN) | Java & DSA
Bhopal, M.P, India | +91 7067620336 | [Linkdin](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Web Developer skilled in the MERN stack (MongoDB, Express.js, React, Node.js) and Java, with a medium-level command of Data Structures & Algorithms. Experienced in building secure, scalable web applications with JWT authentication, payment gateway integration, and AI/LLM API integration. Currently working as a Software Development Intern, with multiple end-to-end personal and academic projects delivered. Quick learner with strong problem-solving ability and a keen interest in modern technologies.

EXPERIENCE

Software Development Intern | Nanotech Softwares (Remote) 6 Months

- Working as part of a remote development team, contributing to web application features using the MERN stack.
- Collaborated with team members on coding tasks, debugging, and code reviews in an agile, remote-first environment.
- Gained hands-on exposure to production-grade coding practices, version control workflows, and client requirement handling.

PROJECTS

News CMS – Full Stack Content Management System | <https://news-cms-project-djv2.onrender.com/> 2025

- Built a scalable full-stack news web application using HTML, CSS, JavaScript, Node.js, and MongoDB, improving content management efficiency.
- Implemented secure authentication and role-based access control (Admin & Author) using JWT and bcrypt for controlled access and data security.
- Integrated article and category management, search, a commenting system, and pagination for a responsive, high-performance UI.

FASHION.COM – E-commerce Web Application | <https://github.com/shivam7067/FASHION.COM> 2025

- Developed a full-stack fashion e-commerce application using HTML, CSS, JavaScript, and Node.js with a responsive, dynamic user experience.
- Built backend functionality including server-side routing, REST APIs, and data management for product listings and user interactions.
- Integrated a secure payment gateway for order checkout and designed an intuitive, scalable UI focused on real-world e-commerce flows.

Movie Explorer | <https://github.com/shivam7067/Movie-explorer> 2026

- Built a movie search and discovery web app consuming a third-party movie API, with dynamic search and responsive UI.

Real-Time Tracker | <https://github.com/shivam7067/RAEL-TIME-TRACKER> 2026

- Developed a real-time tracking application demonstrating live data updates and event-driven UI rendering.

TECHNICAL SKILLS

Languages: Java, JavaScript, C++ (Basic)

Frontend: HTML, CSS, JavaScript, React.js

Backend: Node.js, Express.js

Database: MongoDB

Authentication & Security: JWT Authentication, bcrypt

Integrations: Payment Gateway Integration, AI / LLM API Integration

Core Concepts: Data Structures & Algorithms (DSA), OOPs

Tools & Platforms: Git, GitHub, REST APIs, Postman

EDUCATION

Bachelor of Technology (B.Tech), Computer Science | RGPV University, Bhopal Jul 2023 – Present

CGPA: 7.6

ACHIEVEMENTS

- Solved 150+ Data Structures & Algorithms problems on LeetCode and GeeksforGeeks, covering arrays, strings, recursion, and dynamic programming.

CERTIFICATIONS

- Tata Crucible Campus Quiz 2025 – TATA
- Generative AI – Simplilearn
